

STOP  **ECOCIDE** International

ACTIVATING A LAW TO PROTECT THE EARTH

means unlawful or wanton acts committed with knowledge that there is a substantial likelihood of severe and either widespread or long-term damage to the environment being caused by those acts.

We are developing global cross-sector support for an international crime of ecocide, collaborating across all levels of government and civil society.

diplomats · politicians · lawyers · corporate leaders
NGOs · indigenous elders · faith groups · influencers
academic experts · grassroots campaigns · individuals

The route we advocate is that of amending the Rome Statute of the International Criminal Court (ICC) to include ecocide alongside genocide and crimes against humanity, creating a legal guardrail to protect our planetary home and help steer humanity back to safety.

SUPPORT FOR THIS LAW IS GROWING, THE WORLD IS WAKING UP

"This is a fifth category of crimes against peace, which should be recognised as such by the international community."

Pope Francis
Bishop of Rome and
head of the Catholic Church

"[EU leaders and heads of state must] advocate to make ecocide an international crime at the International Criminal Court."

Greta Thunberg
Environmental Activist

"highly desirable" to include ecocide as a crime at the International Criminal Court

Antonio Guterres
UN Secretary General
